PRODUCT/INTERACTION DESIGNER BASED IN MANCHESTER, UK

## SUMMARY

I approach problem-solving methodically, developing useful solutions by understanding user needs and behaviours, as well as business objectives and technology. I believe in the value of craftsmanship that goes into creating best-in-class digital experiences and am happiest working on delivery as an individual contributor. My areas of expertise include visual design, interaction design, prototyping, design systems and front-end development.

## SKILLS

### User research

Understanding users goals and pain points using various methods to generate insights including surveys, usability testing, heuristic evaluation, competitor analysis and journey analytics.

### Interaction design

Collaborating with product, content, engineering and other stakeholders as part of an iterative design process, crafting polished experiences that resonate with users and deliver value.

### Experimentation and testing

Developing hypotheses based on observations and measuring the impact of experiments on success metrics through intent tests, A/B testing and conversion rate optimisation (CRO).

## EXPERIENCE

MAY 2023 - JULY 2023

### Made Tech

Public sector technology delivery experts.

### Senior Designer

As a senior-level individual contributor at the Met Office, I worked as part of an agile development team focused on developing consumer-facing native iOS and Android apps that adhere to Government Digital Service (GDS) standards. The team's main goal was improving weather forecast features, helping users make better decisions to stay safe and thrive.

### Achievements

- Championed design systems and helped the team transition from Sketch. Established the foundations of a themeable design system native apps in Figma.

MAR 2021 - MAY 2023

### Career break

Time spent focusing on personal goals, health and well-being.

NOV 2015 - MAR 2021

### Booking.com

The world's leading provider of online travel and related services.

### Lead Designer

Responsible for design across the Peace of Mind product group. My role involved influencing, communicating and delivering design efforts aligned with the group's mission to provide customers and partners with clear and simple insurance alongside involvement in wider design team initiatives.

### Achievements

- Researched, designed and tested features including an improved product detail page offering customers clearer information.
- Contributed towards improving team culture through facilitation and participation in co-design activities and by securing sponsorship and coordinating events.
- Developed a tool to help teams identify ways of conducting user research and successfully made a case to extend licensing agreements of research tooling.
- Increased consistency and reuse of components across the customer journey and created documentation reducing compliance risk and time to onboard contributors.

**Senior Designer**

Senior-level individual contributor across several Customer Service product teams. Designed new Help Centre and Live Chat features and improved transparency of information through the booking funnel achieving reductions in contact and cancellation.

**DEC 2008 - NOV 2015****Freelance**

Independent freelance and contract design for various brands including BBC, Channel 4 and Tesco. Engagements ranged from developing prototypes and conducting user research to UI design and front-end development of responsive websites.

**DEC 2001 - DEC 2008****IG**

A global leader in online trading and investments.

**Head of Design**

Managed team responsible for UI and interaction design of award-winning online trading platforms. Established consistent visual design across a range of brands and products.
