SUMMARY

I approach problem-solving methodically, developing practical solutions by understanding user needs and behaviours, as well as business objectives and technology. I believe in the value of craftsmanship that goes into creating best-in-class digital experiences and am happiest working as an individual contributor. My areas of expertise include visual design, interaction design, prototyping, and design systems.

EXPERIENCE

JUL 2023 - PRESENT

DESIGNER

Freelance

As an independent design consultant, I help organisations including Made Tech improve their digital products. Completed projects include research, design and specification of new features, optimisation of existing web and mobile experiences, and supporting broader marketing initiatives.

MAY 2023 - JUL 2023

SENIOR DESIGNER

Made Tech

As a senior-level individual contributor at the Met Office, I worked in a cross-functional agile team developing native iOS and Android weather apps adhering to Government Digital Service (GDS) standards. The team's goal was improving weather forecast features, helping users make better decisions to stay safe and thrive.

- Championed design systems and helped the team transition from Sketch to Figma.
- Established the foundations of a themeable design system for apps.

MAR 2021 - MAY 2023

CAREER BREAK

Time spent pursuing personal goals and prioritising health and well-being.

SEP 2016 - MAR 2021

LEAD DESIGNER

Booking.com

Responsible for design across the Peace of Mind product group. My role involved influencing, communicating and delivering design efforts aligned with the group's mission to provide customers and partners with clear and simple insurance alongside involvement in wider design team initiatives.

- Researched, designed and tested features including an improved product detail page offering customers clearer information.
- Contributed to improving team culture by facilitating co-design activities, securing sponsorship, and coordinating events.
- Developed a tool to help teams conduct user research and successfully made a case to extend licensing agreements of research tooling.
- Increased consistency and reuse of components across the customer journey and created documentation reducing compliance risk and time to onboard contributors.

NOV 2015 - SEP 2016

SENIOR DESIGNER

Booking.com

Senior-level individual contributor across several Customer Service product teams, focused on delivering an effortless self-serve experience to customers.

- Designed new Help Centre and Live Chat features and improved transparency of information through the booking funnel, achieving reductions in contact and cancellation.
- Gained certification from Scrum Alliance and served as interim Product Owner/Manager to cover recruitment gaps across teams.
